Dear Parents/ Guardians:

There were some 7th grade students who were identified as being eligible for REACH. Although the students are currently performing well at school, only 8th grade students are eligible for the REACH scholarship. Please do not complete the application.

I sincerely apologize for the error. However, this does show that the students are working towards being potentially nominated for next year. I plan to personally meet or email each student to explain the issue as well as provide more information about the REACH process.

If you have any questions or concerns, please feel free to contact me at siedra.pitts@gscs.org or (770) 229-3739.

Thank you,

Siedra Pitts
School Counselor
